5.56MM .223 CAL
7.62MM .308 CAL

PRECISION MACHINED

HEAT TREATED
CHROMOLY

STAY ON
TARGET

DESCRIPTION

SureFire's ProComp Muzzle Brakes are constructed of heat-treated steel, precision machined from USA mill-certified bar stock. Each ProComp Muzzle Brake features high-precision single-point barrel interface threads. The advanced ProComp Muzzle Brakes, greatly reduce both recoil impulse and muzzle rise so that the weapon tracks straight back to keep you on target for faster shot-to-shot recovery. Its patented Impulse Diffusion design minimizes side blast and rear-directed concussion effects. Muzzle Brakes with a bore diameter of 7.62 or greater feature neutral porting for an even loading of bipod legs; those with a smaller bore diameter have offset porting so that the rifle tracks straight back in recoil. ProComp Muzzle Brakes reduce recoil and muzzle rise for faster shot-to-shot recovery. ProComp Muzzle Brakes are individually inspected for concentricity and alignment, and each is covered by SureFire's No-Hassle Promise.

FEATURES

- Models with 7.62 and larger bore diameter feature neutral porting so brake loads bi-pod legs evenly
- Models with bore diameter less than 7.62 (e.g. 5.56) feature offset porting so rifle tracks straight back
- Melonite coating provides maximum protection against harsh environmental conditions and facilitates cleaning after extreme use
- High-precision single-point barrel interface threads
- Precision CNC machined from USA mill-certified bar stock
- Inspected for all critical dimensions including concentricity and alignment
- Made in the USA

* PROCOMP-556-1/2-28 shown above

PROCOMP MUZZLE BRAKE	
FINISH	Nitride Finish
CALIBER	5.56 mm, 7.62 mm
WEIGHT	5.56 - 3.4 oz (96 g) ; 7.62 - 3.1 oz (90 g)
LENGTH	5.56 - 2.5 inches (6.35 cm) ; 7.62 - 2.7 inches (6.85 cm)

*Actual length may vary, depending on which SureFire adapter is used
