

SF RYDER™ 9-MP5

SOUND SUPPRESSOR FOR H&K MP5 WITH TRI-LUG ATTACHMENT

9 MM

PRECISION MACHINED

FAST-ATTACH®

STAY ON TARGET

HEAT TREATED STAINLESS STEEL

DESCRIPTION

The stainless-steel-constructed SF RYDER 9-MP5 is a duty-use suppressor for the H&K MP5 sub-machine gun. The suppressor attaches to a standard tri-lug barrel via our patented Fast-Attach® mechanism, similar to the way our best-in-class SOCOM Series suppressors attach. Our patented stainless steel baffles are extremely durable and highly effective at attenuating noise, and built-in spacers help prevent excessive carbon buildup. The suppressor is easily disassembled for cleaning, and the baffles are indexed and numbered for ease of reassembly. Designed for duty use, the RYDER 9-MP5 does not affect bullet performance or increase point of impact/point of aim as is the case with other sub-machine gun suppressors. When it comes to durability, performance, and ease of maintenance, the RYDER 9-MP5 is the clear choice for suppressing the MP5.

FEATURES

- Stainless steel construction, rounded ends and fluted body reduce weight with no sacrifice in strength
- Patented stainless steel baffles are durable and provide superior sound attenuation and reduced muzzle blast
- Built-in spacers help reduce carbon buildup between baffles
- Baffles are numbered and indexed for easy reassembly
- Included assembly/disassembly tool for cleaning
- Attaches to Tri-Lug option sub-machine-gun barrels
- Coated with durable, Cerakote finish
