

SF RYDER™ 9 SPACER

FIXED BARREL SPACER

9 MM

PRECISION MACHINED

FAST-ATTACH*

COMBAT PROVEN

STAY ON TARGET

HEAT TREATED STAINLESS STEEL

DESCRIPTION

The SureFire RYDER 9 Fixed Barrel Spacer is to be used for added reliability when firing the SF RYDER 9-Ti2 and SF RYDER 9M-Ti suppressors on a fixed barrel firearm, typically seen with 9mm carbines and rifles. This machined stainless steel spacer with short spring restricts the movement of the suppressor for increased reliability and inherent accuracy when firing suppressed. Simply replace the provided booster spring that ships standard with the suppressor and swap for the fixed barrel spacer.

SF-SPCR-9Ti2

FEATURES

- Simple installation
- Designed to be installed with tool provided with purchased SF RYDER 9-Ti or 9M-Ti option suppressor
