

SF3P

SUREFIRE FLASH HIDER

MULTI

PRECISION MACHINED

FAST-ATTACH*

HEAT TREATED
STAINLESS STEEL

REDUCED
MUZZLE FLASH

DESCRIPTION

The advanced SureFire SF3P three-prong flash hider features a patent-pending design that greatly reduces muzzle flash—typically greater than 99%—when compared with a bare muzzle. Boasting robust tines built to withstand the rigors of combat, the SF3P flash hider also serves as a rock-solid mounting adapter for SureFire SOCOM Series Fast-Attach® suppressors. Precision machined from US mill-certified heat-treated stainless steel bar stock—and including high-precision single-point cut threads for optimum thread interface—the SF3P flash hider is given a black DLC coating to provides maximum protection under harsh environmental conditions and to facilitate cleaning, even after extreme use. When used in conjunction with a SureFire SOCOM Series suppressor, the patent-pending design of the SF3P flash hider provides multiple bearing surfaces to ensure superior suppressor alignment. A rear labyrinth seal minimizes potential carbon buildup in the indexing system and facilitates suppressor removal after extended firing. SureFire flash hidere are individually inspected for concentricity and alignment and are covered by SureFire's No-Hassle Guarantee.

FEATURES

- Patent pending design produces over 99% flash elimination
- Multiple bearing surfaces provide superior suppressor alignment
- Robust design helps prevent ringing of tines inside suppressor
- Labyrinth seals keep the rear mounting surface cleaner
- Serves as a mounting adapter for SureFire SOCOM and SOCOM2 Series Fast-Attach suppressors
