

SOCOM50-SPS

SUREFIRE FAST-ATTACH® SOUND SUPPRESSOR

.50 BMG

PRECISION MACHINED

FAST-ATTACH®

STAY ON TARGET

STAINLESS STEEL

DESCRIPTION

Highly specialized tools in the arsenal of our warfighters, .50 BMG rifles such as the TAC50 and M107 deliver a cannon-like report that's as extreme as the weapons themselves. The new SureFire SOCOM50-SPS tames these beasts with patented baffle technology that significantly attenuates sound, reduces flash by an amazing 99% and virtually eliminates dust signature to mask the shooter's position.

The SOCOM50-SPS is designed and engineered to exacting tolerances and test fired to ensure sub-MOA accuracy. Precision manufacturing tolerances, attention to bore concentricity and suppressor alignment produce the most accurate .50-caliber suppressor available. The SOCOM50-SPS also incorporates an optimized integral muzzle brake to manage recoil for faster follow-up shots.

Manufactured of stainless-steel alloys in the U.S.A. and coated with a high temperature Cerakote finish, the SOCOM50-SPS is durable enough to survive the harshest combat environments. SureFire's innovative Fast-Attach® system allows lightning-fast and rock-solid suppressor attachment without the use of tools.

The SureFire SOCOM50-SPS is the ultimate in suppressor performance for bolt-action and semi-automatic .50-caliber rifles.

FEATURES

- Delivers up to 99 percent flash reduction to conceal the shooter's location
- Significant sound and dust signature reduction
- Tight tolerances and bore concentricity result in excellent accuracy
- Includes optimized integral muzzle brake to manage recoil for faster follow-up shots
- All SOCOM50-SPS suppressors are test-fired to verify sub-MOA accuracy
- Stainless-steel alloy construction and high temp Cerakote finish provide extreme durability in the harshest environments
- Patented Fast-Attach system allows for quick attachment and detachment without the use of tools
- Delivers long service life
- Proudly designed, engineered and manufactured in the U.S.A.
