

SOCOM556-MINI2

SUREFIRE FAST-ATTACH® SOUND SUPPRESSOR

5.56 MM

PRECISION MACHINED

FAST-ATTACH®

COMBAT PROVEN

STAY ON TARGET

HIGH-TEMP ALLOY

DESCRIPTION

In close quarters, when every inch of weapon length matters, the SureFire SOCOM556-MINI2 can be trusted to deliver the same level of performance that assured SureFire's victory in the extremely demanding US Special Operations Command (SOCOM) suppressor trials.

The meticulously engineered SOCOM556-MINI2 packs virtually all the attributes of our popular SOCOM556-RC2 suppressor in a more compact package. Measuring a mere 5 inches in overall length, the SOCOM556-MINI2 places a premium on efficiency while maintaining the quality that is synonymous with every SureFire suppressor.

Specifically designed for use with 5.56 mm (.223 caliber) weapon systems, the SOCOM556-MINI2 is carefully constructed of advanced high-temperature Inconel and stainless steel. Precision CNC laser-welding is employed to give all of our suppressors uncompromising strength and durability even when used in full-auto mode. Innovative internal baffling is incorporated to give the SOCOM556-MINI2 a significant decrease in back pressure, cyclic rate and gas blowback, which yields a tremendous reduction in sound and dust signature, and virtually undetectable first-round flash when it matters most. The SOCOM556-MINI2 is optimized for 14.5-inch, 5.56 mm M4 variants.

The SOCOM556-MINI2 also features the SureFire Fast-Attach® system, which allows for easy and reliable attachment or removal of the suppressor in seconds. And like every SureFire Fast-Attach suppressor model, you can count on the SOCOM556-MINI2 to produce minimal and consistent point-of-impact shift compared to that of an un-suppressed weapon.

Built for consistent performance and a long service life, every SureFire suppressor is proudly designed and manufactured in the USA.

FEATURES

- Durable high-temperature Inconel alloy/stainless-steel construction ensures tremendous dependability even with full-auto use
- Five-inch overall length reduces weapon length for minimal impact on handling characteristics
- Tight tolerances and precision bore concentricity result in superior accuracy
- Cutting-edge internal venting reduces back pressure, cyclic rate and gas blowback to significantly decrease operating temperatures
- Tremendous sound, flash and dust signature reduction; virtually non-existent first-round flash reduces user detection
- Patented, tool-less Fast-Attach® design allows quick, easy attachment and removal
- Innovative mounting adapters feature multiple bearing surfaces for tight mating with suppressor and a precise fit
- All SOCOM556-MINI2 suppressors are test-fired to verify sub-1 MOA group size and point-of-impact shift
- Durable construction delivers long service life
- Proudly designed and manufactured in the USA

SPECIFICATIONS		SOCOM556-MINI2
BODY COLORS		
CALIBER		5.56 mm (.223 caliber)
CONSTRUCTION		High-Temp Alloy & Stainless Steel
COATING		Ionbond and Cerakote™ Finish
DIAMETER		1.5 in (3.8 cm)
LENGTH		5.0 in (12.7 cm)
ADDED TO WEAPON*		2.5 in (6.4 cm)
WEIGHT		15 oz (425 g)

*Actual length may vary, depending on which SureFire adapter is used
