ALLOY

DESCRIPTION

The SureFire SOCOM65-RC2 incorporates the latest in manufacturing techniques and materials to produce a class-leading suppressor, delivering the utmost in sound attenuation and a tremendous reduction in flash and dust signature.

While SureFire's exotic SOCOM65-Ti is best suited for bolt-action precision rifle, sniper and hunting applications, the versatile SureFire SOCOM65-RC2 suppressor meets and exceeds the needs of the majority of .260 caliber, 6.5 Creedmoor and 6mm semiautomatic rifle users by utilizing the same technically advanced design and engineering that earned SureFire a victory in the harshest, most demanding suppressor trials in U.S. Special Operations Command history.

It all starts with our dedication to design and our refusal to use anything but advanced Inconel alloy and stainless-steel materials that are CNC laser-welded for uncompromising durability. Inside, SureFire's technically superior internal baffling reduces back pressure as well as sound to match supreme accuracy with extreme quiet when compared to an unsuppressed weapon. And SureFire's patented Fast-Attach® system makes attachment/removal of the suppressor quick and easy in any environment.

Built for consistent performance and a long service life, every SureFire suppressor is proudly designed and manufactured in the U.S.A.

FEATURES

- Durable high-temperature Inconel alloy/stainless-steel construction withstands extreme use
- Tight tolerances and precision bore concentricity result in superior accuracy
- Internal venting design reduces back pressure, cyclic rate and gas blowback
- Tremendous sound, flash and dust signature reduction; virtually non-existent first-round flash reduces user detection
- Patented, tool-less Fast-Attach® design allows quick, easy attachment and removal
- Innovative mounting adapters feature multiple bearing surfaces for tight mating with suppressor
- All SureFire SOCOM suppressors are test fired to ensure accuracy
- Sturdy construction; delivers long service life
- Proudly designed and manufactured in the U.S.A.

SPECIFICATIONS		SOCOM65-RC2
BODY COLORS		
CALIBER		6 mm, 6.5 mm, .260 Caliber
CONSTRUCTION		High-Temp Alloy & Stainless Steel
COATING		DLC and Cerakote™ Finish
DIAMETER		1.5 in (3.8 cm)
LENGTH		8.4 in (21.3 cm)
ADDED TO WEAPON*		5.9 in (14.9 cm)
WEIGHT		21.0 oz (595 g)

*Actual length may vary, depending on which SureFire adapter is used
