

# SOCOM762-MG

SUREFIRE FAST-ATTACH® SOUND SUPPRESSOR

7.62 MM

PRECISION MACHINED

FAST-ATTACH®

COMBAT PROVEN

HIGH-TEMP ALLOY

## DESCRIPTION

FNH M240/Mk48 machine guns are tremendously capable weapon systems, but they are also easily detectable when unsuppressed. The SureFire SOCOM762-MG suppressor features superior engineering and construction designed to reduce weapon signature when combat conditions require a more furtive approach to the mission.

The SOCOM762-MG is a hardier version of our US Special Operations Command (SOCOM) suppressor trial-winning SOCOM762-RC suppressor. Its highly advanced baffle design is meticulously engineered for superior gas-flow dynamics that significantly reduce back pressure, cyclic rate and gas blowback on the shooter while effectively attenuating sound and decreasing flash and dust signatures to reduce detection. But the SOCOM762-MG's Inconel alloy and stainless steel materials are substantially thicker, with more robust baffles for extreme durability under the heat and stress of regular full-auto use.

SureFire's patented Fast-Attach® mounting system ensures a consistently solid and precise fit, and the SOCOM762-MG can be attached or removed in seconds without the use of tools. And like all SureFire suppressors, the SOCOM762-MG is test-fired to ensure minimal and consistent point of impact shift compared to the unsuppressed weapon, virtually eliminating the need to constantly re-zero the weapon. It is combat ready right out of the box.

Built for consistent performance and a long service life, every SureFire suppressor is proudly designed, engineered and manufactured in the USA.

## FEATURES

- Sturdier, heavy-duty version of the US Special Operations Command suppressor trial-winning SOCOM762-RC; the SOCOM762-MG features the finest engineering and materials for unsurpassed performance and reliability
- Designed specifically for full-auto machine gun use, the SOCOM762-MG's thicker baffles increase endurance for supreme reliability during extreme full-auto use
- Durable high-temperature Inconel alloy/stainless-steel construction, specifically designed and engineered for full-auto 7.62 mm rifles
- Cutting-edge internal venting reduces back pressure, cyclic rate and gas blowback to significantly decrease operating temperatures
- Tremendous sound, flash and dust signature reduction; virtually non-existent first-round flash reduces user detection
- Tight tolerances and precision bore concentricity result in superior accuracy; every SOCOM762-MG is test-fired to ensure minimal and consistent shift in point of impact compared to an unsuppressed weapon
- Patented, tool-less Fast-Attach® design allows quick, easy attachment and removal
- Innovative mounting adapters feature multiple bearing surfaces for tight mating with suppressor
- All SureFire SOCOM rifle and carbine suppressors are test fired to ensure no more than 1 MOA groups compared to that of the baseline unsuppressed rifle
- Sturdy construction; delivers long service life
- Proudly designed and manufactured in the USA

SPECIFICATIONS		SOCOM762-MG
BODY COLORS		
CALIBER		7.62 mm (.308 caliber)
CONSTRUCTION		High-Temp Alloy & Stainless Steel
COATING		DLC and Cerakote™ Finish
DIAMETER		1.5 in (3.8 cm)
LENGTH		9.3 in (23.6 cm)
ADDED TO WEAPON*		6.2 in (15.7 cm)
WEIGHT		29 oz (822 g)

\*Actual length may vary, depending on which SureFire adapter is used
